UFID: 94134866

How to run:

escript project3 numNodes numRequests

What is working:

The graph below depicts the curve for number of requests 10 with number of nodes ranging from 100 to 45000 on each node.

Graph between Number of Nodes and Number of Hops

Largest Network:

The largest network that this protocol works for is 100,000 nodes.
